The FD-CC1 kit integrates a cargo camera for truck-bed viewing into the factory screen in Ford SuperDuty trucks equipped with the SYNC2 or SYNC3 (8") screen. The kit includes an OEM-style cargo camera and requires a toggle switch for viewing.

Please verify that the center-brake light has 2 mounting screws and not 4.

NOTE: the cargo camera view can only be accessed while the truck is in reverse.

NOTE: This kit will NOT program rear camera. This module is only intended for use on trucks with an existing rear camera.
