The BNT Audio v2 Kit allows the user to add 1 or 2 auxiliary audio inputs to the factory media systems in 2005-2012 Bentley vehicles. Currently this kit is not plug & play and must be manually wired (3 wires) in to the system.

When used together with the BNT-Kit (which is a video only interface for these vehicles) this module can be used to add 2 audio/video sources to the radio.

Car Radio Versions
