 UPC/EAN
00635510695394

This product is currently under re-development, and will be available in the near future. If you wish to be placed on the waiting list, please send an E-Mail to Sales@NavTV.com.

Car Radio Versions

IOT/IOS 8"

NAV-TV's AVB-GM processor seamlessly converts GM's AVB bus to low level (6 channel) Analog RCA or TOSLink outputs. Adding an aftermarket amplifier to the OE BOSE IOS/IOT system will never be so easy or seamless. This plug & play kit integrates with various OEM data networks to retain OnStar, door chimes, volume control, full fade and balance (analog only), treble, mid-range, bass control & Bluetooth voice calls with no external speaker (true OEM integration). NOTE: the OEM amplifier must be disconnected to maintain proper functionality.

Note: TOSLink/SPDIF output is currently not supported.
