Price: **\$379.00**

 manufacturer
NAV-TV

 ID SKU NTV-KIT909

 weight
1.00 Lbs

 market
USA, Rest of
World, Europe

 UPC/EAN
00635510694779

The RGBBMW adds an aftermarket backup camera to the factory navigation screen in select BMW vehicles. A secondary video input is included on the RGB module and can be viewed at any time by supplying power to an input wire (optional.)

NOTE: For vehicles with navigation, but without an iDrive knob, there is an available [Plug & Play T-Harness](#) for added installation efficiency.

*NOTE 2: The nav/map **must** be displayed on screen for the camera image to appear. On some vehicles, the map can be changed from split-screen to full-screen using the car's controls.*

NOTE 3: If the vehicle is equipped with parking sensors and the navigation is set to full-screen, then the sensors must be turned off after shifting into Reverse to see the camera.

Car Radio Versions

Navigation equipped radio

RGB-BMW Compatibility Chart

Model	Year Range	Version	Radio	Notes
