NAV-TV

 ID SKU NTV-MOD031

 weight
15.00 Lbs

 market
USA, Rest of
World, Europe

 UPC/EAN
00635510693987

This modification is used for select radios that have no option of adding a video input (typically for reverse cam) with any available interface. ***This modification will add 2 video inputs (including one rear camera input), selectable by CAN data (rev cam) or 'NAV' button (video inputs). This modification has an upgrade option for adding HDMI input to the main screen as well (requires KIT800).***

After receiving the RMR# (Radio/MOD/Repair) and filling out the RMR form (below), the unit must be packaged thoroughly and sent to NAV-TV to be modified at the board level, tested and sent back with the proper components. There is a 3-DAY turn-around for this process.

Note:

NAV-TV will not take any responsibility for a radio that is shipped without adequate packing materials or insurance.

All CD's and DVD's must be removed from the radio before shipping to avoid damage to the radio. If the radio requires a navigation disc to operate, please include it in a separate padded envelope.

Contact NAV-TV with questions on this process or for compatibility at 561-955-9770.
